What's new

February 2025

## Guided tour and new tutorials

For teachers

### What's new?

After creating their account, a new teacher is now presented with five of the most useful tutorials to successfully start their work in Cambridge One. All teachers can access these tutorials, as well as a guided tour of their dashboard, in the extended Help menu (see image below).

Teachers now also get better guidance on the Classes tab of their dashboard explaining what they need to do in case they haven't created or joined any classes yet (see second screenshot).

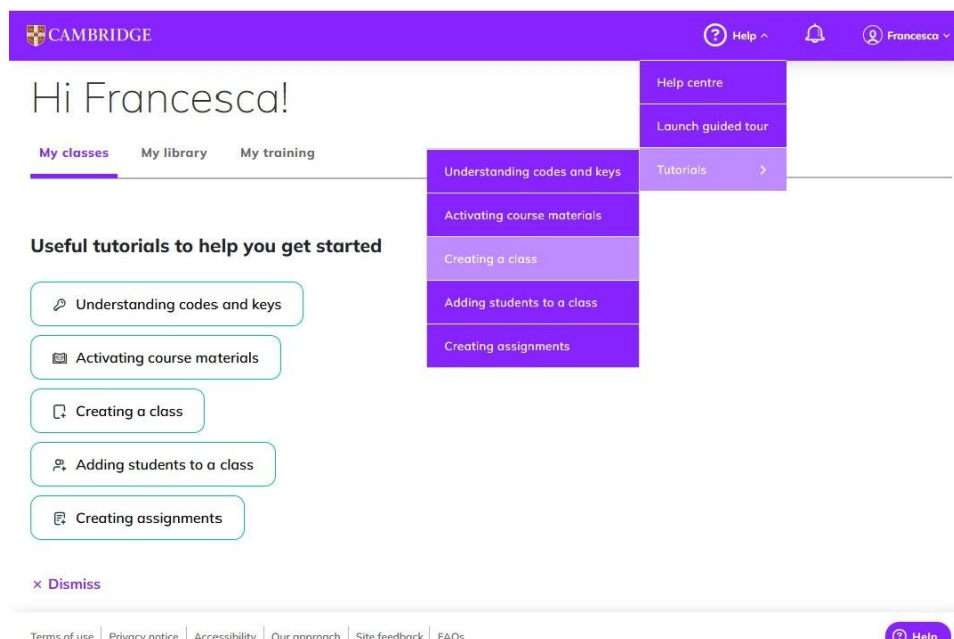

### The benefits

Offering new teachers detailed information about the most useful features available to them will help them at the start of their journey on Cambridge One by guiding them through the tasks they will need to complete, step by step.

### How does it work?

The updates will appear automatically, so no action is needed.

### How it looks
