Aggregated progress data report

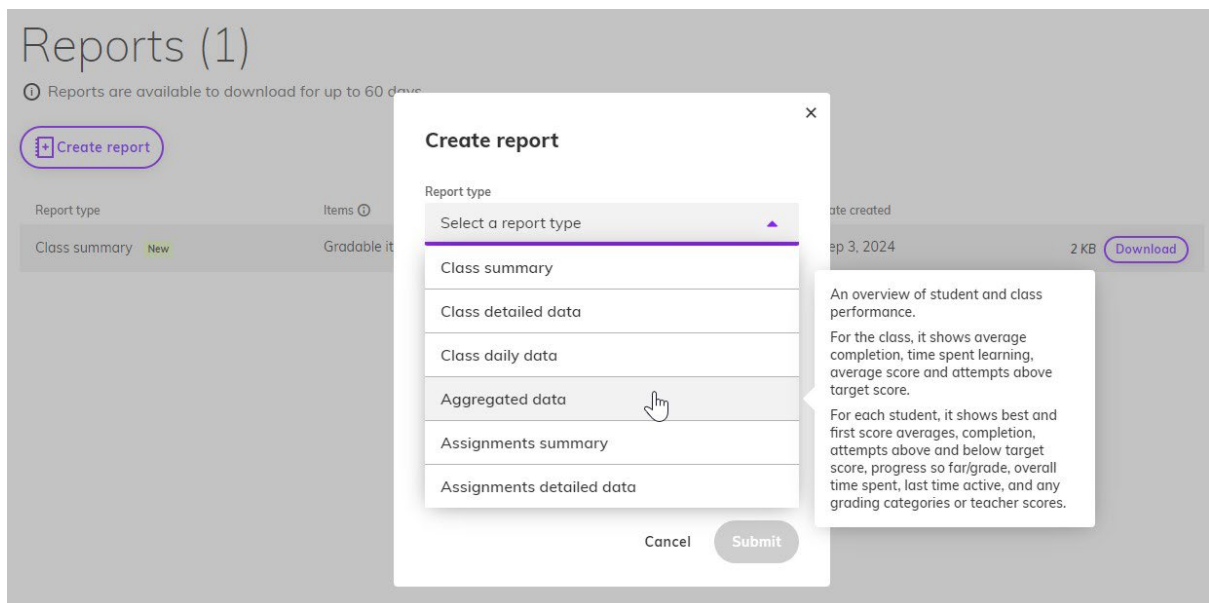

For administrators / teachers

What's new?

The new 'Aggregated Data' report offers teachers and administrators aggregated learner progress data across all class materials, incorporating any class-specific score customisations.

The report is available for download in .csv format and includes a zip folder containing the following files:

- Class-level aggregated data
- Student-level cross-material data
- Student-level material-specific data

Reports (1)

Reports are available to download for up to 60 days

- Class daily data
- Aggregated data
- Assignments summary
- Assignments detailed data

Cancel Submit

An overview of student and class performance.

For the class, it shows average completion, time spent learning, average score and attempts above target score.

For each student, it shows best and first score averages, completion, attempts above and below target score, progress so far/grade, overall time spent, last time active, and any grading categories or teacher scores.

The benefits

Teachers and administrators will be able to seamlessly integrate the data into their internal reports, eliminating the need for manual copying from the platform. This will save significant time and effort, allowing them to focus more on analysis and decision-making.
