July 2025

Users can create hyperlinks in Presentation Plus and eBooks

For teachers

What's new?
Cambridge One Presentation Plus and eBook users will be able to add hyperlinks to external resources or documents in the cloud such as videos, documents, etc.

The benefits
Users will be able to personalise Presentation Plus and eBooks and organise content resources in a much more efficient manner.

How does it work?
Hyperlinks can be pinned to the eBook page and placed where the user chooses, next to the relevant activity. The hyperlink feature is offered along with the 'Notes' creation in a section that is now called 'Notes and hyperlinks' in the tools menu of Presentation Plus.

How it looks

To try this feature, visit cambridge.org/one
