

Pre-A1 Starters, A1 Movers and A2 Flyers Interactive Sample Tests

Guidance for Teachers

This set of interactive sample tests has been created to help you assess whether learners are ready to take Pre-A1 Starters, A1 Movers and A2 Flyers and to identify where they need more practice.

Instructions are provided below to help you share these papers with parents so that children can take the test at home.

1. Create a mailing list of parent email addresses for the learners you wish to complete the sample tests.
2. Create a new email, adding in your mailing list.

Note: Make sure you enter email addresses in the bcc box, so that you don't share parents' email addresses with other parents.

3. Attach the following documents:
 - Guidance for Parents
Note: You may wish to translate and/or adapt the Guidance for Parents document to suit your local context.
 - Listening Question Paper – Interactive for Starters, Movers or Flyers as applicable
 - Reading-Writing Question Paper – Interactive for Starters, Movers or Flyers as applicable
4. Provide the following information:
 - Introduction to why you are sending out the papers, the aim of completing these practice papers and any other background information that will help parents to enable their children to complete the papers with the right level of support
 - How you wish the completed papers to be named
 - How you wish the completed papers to be returned
 - Time and date for completed papers to be returned by parents
 - Date you will send out results or feedback
5. Once you have sent your email, you may wish to follow up with parents in case they have any queries.
6. On receipt of completed papers, mark them using the Marking Key provided in:

[Starters sample paper folder](#)

[Movers sample paper folder](#)

[Flyers sample paper folder](#)

Note: The final part of the Listening test (Part 4 for Starters and Part 5 for Movers and Flyers) has been removed from the interactive test and you will need to adjust the total possible score accordingly.
